

Your Trusted Resource

Kinark Autism Services is your dedicated partner in providing professional services tailored for community organizations, educational institutes, and clinical providers. We offer a diverse range of programs and workshops designed to support the success of employees and individuals who work with neurodiverse populations. Our goal is to empower, educate, and inspire, ensuring that all professionals have the tools they need to thrive in a diverse and inclusive world.

Community Organizations

Resource Kits

We provide individualized packages that includes various resources such as visual schedules, and token boards.

Resource Days

We provide in-person workshops for staff and caregivers to collaborate with our resource assistant in creating individualized materials and resources.

ABA Workshops

Explore our extensive selection of workshops tailored for diverse community organizations dedicated to supporting individuals with Autism Spectrum Disorder (ASD). Our wide range of topics include but extend beyond healthy eating, sleep, toileting, community safety, and effective management of challenging behaviours. Our ABA workshops are tailored for parents/caregivers.

Capacity Building Training

We offer a variety of training and workshop options designed to enhance your staff's and families' comprehension of Autism Spectrum Disorder (ASD), Applied Behaviour Analysis (ABA), ableism, and neurodivergence. Our capacity building training is tailored for educators and professionals.

Educational Institutions

Skill Building Groups

We offer a wide selection of customized virtual and on-site groups tailored to your learners' unique requirements. Our programs focus on developing essential social and group skills, enhancing children and youth's ability to integrate seamlessly with peers. Each group is thoughtfully designed with specific objectives, which includes, but is not limited to, nurturing and sustaining friendships, emotional regulation, life skills, addressing dating dynamics, preventing bullying, and building career and vocational skills.

Education Series: ABA Methods and Techniques

Our comprehensive training package for ABA methods and techniques is designed specifically for educators, with a focus on deepening their knowledge of Applied Behaviour Analysis (ABA). Our Education Series covers essential ABA concepts, such as reinforcement, prompting, chaining, shaping, and equips educators with a toolkit of techniques and strategies to effectively support their learners within classroom settings.

Clinical Providers

BCBA Supervision for Independent Fieldwork

We offer one-on-one and group BACB supervision for professionals in the process of accruing their Supervised Independent Fieldwork, ensuring their eligibility for BACB certification(s).

BCBA Consultation on Clinical Cases

We offer expert BCBA clinical consultation/supervision for clinicians and teams assisting complex clients, allowing them to broaden their scope of competence and proficiency.

Continuing Education Unit Series

We provide a variety of both in-person and virtual Continuing Education Units (CEU) opportunities for clinicians with a BCaBA, BCBA, or BCBA-D certification. These sessions are ideal for those pursuing CEUs to fulfill their certification requirements.
